

# How Might Digital Learning Support Student Success?

## 1. Interview: Approach to digital learning on your campus

8 min (2 x 4 min each partner)

Notes from your interview

### Question Bank

You may choose to use some or all of these questions in your interview.

- 1)** Provide three specific examples of reforms or improvements that your institution has implemented or is aiming to implement as part of your transformation to a digital learning college.
  
- 2)** How is your college assessing or measuring instructional improvement and effectiveness or the quality of the student learning experience?
  
- 3)** How does digital learning currently (or at all?) ensure greater mastery and improved course completion for students on your campus (i.e., helping student retention, ensuring students are learning)?

## 2. Interview: Pain Points

8 min (2 x 4 min each partner)

Notes from your interview

### Question Bank

You may choose to use some or all of these questions in your interview.

- 1)** Implementing digital learning requires a shift to more applied, collaborative, and project-based learning experiences for students. What is most difficult about making this shift in pedagogy and instruction? How might digital learning assist in this transition?
- 2)** How do you or your institution measure and track course and program success by student sub population and/or demographic markers (such as Pell, veteran status, under-represented minority status, gender, etc.)? Does this happen across your institution or in pockets?
- 3)** (If yes, to #2) Has your institution discovered meaningful equity gaps in student achievement and/or program success as a result of this analysis? If so, what are faculty, deans, and administrators at your college doing to reduce and erase these gaps?
